IRRI	Cereal Knowledge Bank	<p>The Cereal Knowledge Bank (CKB) is the world's leading repository of extension and training materials related to cereal and cereal production. The CKB was launched in January 2008 and is managed by the International Rice Research Institute (IRRI) and International Maize and Wheat Improvement Center (CIMMYT) as a service to people working to improve the well-being of poor cereal farmers and consumers. This web site has 3 main components:</p> <ol style="list-style-type: none"> 1. Maize Knowledge Bank 2. Rice Knowledge Bank 3. Wheat Knowledge Bank 	<p>http://www.knowledgebank.irri.org/</p> <p>Maize knowledge Bank http://www.knowledgebank.irri.org/maize/CKBmaize-default.htm</p> <p>Rice Knowledge Bank http://www.knowledgebank.irri.org/Rice/Ricedefault.htm</p> <p>Wheat Knowledge Bank http://www.knowledgebank.irri.org/Wheat/CKBWheat-default.htm</p>
	DSpace at IRRI	The Repository of all intellectual output of IRRI.	http://172.29.75.30:8080/dspace/
	IRGCIS The International Rice Genebank Collection Information System	<p>The International Rice Genebank Collection Information System (IRGCIS) is a comprehensive system that manages the data of all rice germplasm conserved at IRRI. The system aims to assist the genebank staff in day-to-day activities; facilitate recording, storage and maintenance of germplasm data, allows to request the desired seeds and provide direct access to information pertaining to accessions in the genebank. The data that are accessible are: Passport data, Morpho-agronomic description, and Evaluation data on the International Rice Genebank Collection, as well as germplasm availability.</p>	http://www.irgcis.irri.org:81/grc/irgcishome.html

	IRRI books on Google Book Search (GBS)	Some 300 titles of past and present scientific books published by IRRI spanning 40 years	http://books.irri.org/
	IRRI Photobank	This resource contains more than 5,000 rice-related photos, including landscapes, people, events, markets, laboratories, pests, and diseases. IRRI staff has full downloadable access to these images. Non-IRRI staff need to log-in to view the photos. Permission must be obtained from IRRI-images@cgiar.org . to be able to download.	http://www.ricephotos.org/
	IRRI photos on flickr	This is a subset of IRRI photos available in the IRRI Photo Bank freely downloadable via the same creative commons license deed. Registration not required	www.flickr.com/photos/ricephotos
	IRRI Publications Catalog	An online catalog of IRRI publications.	http://www.irri.org/publications/catalog/index.asp
	IRRI Rice News Worldwide	Operational since 1 June 2005, this facility aggregates news and features about rice appearing on media Web sites worldwide.	http://ricenews.irri.org

	IRRI videos on YouTube	Growing collection of IRRI videos on YouTube currently numbering around 40.	http://ca.youtube.com/profile_videos?user=irrivideo&p=v
	IRRI Training Courseware Materials	Courseware materials support IRRI Training courses. These are available in five media classifications: print-on-paper (POP); slide-tape modules (STP); video instruction (VI), CD-based materials (CD), and web-based publications (WP).	http://www.training.irri.org/courseware/courseware.htm
	International Rice Information System	IRIS is the rice implementation of the International Crop Information System (ICIS) which is a database system that provides integrated management of global information on genetic resources and crop cultivars. This includes germplasm pedigrees, field evaluations, structural and functional genomic data (including links to external plant databases) and environmental (GIS) data.	http://www.iris.irri.org/
	Press Releases	A comprehensive list of all the press releases issued by IRRI since March 1999. These materials may be freely used and quoted but users are enjoined that a copy be sent to IRRI if anything is published.	http://www.irri.org/media/press/index.asp

	IRRI Publications Catalog	An online catalog of IRRI publications.	http://www.irri.org/publications/catalog/index.asp
	World rice statistics	World rice statistics (WRS) presents comprehensive time series data related to rice. Data on rice production, trade, consumption, inputs, prices, and other related information are compiled from international and national statistical sources, personal communications, and from responses to questionnaires sent by IRRI's Social Sciences Division. Updated as new data become available.	http://www.irri.org/science/ricestat/index.asp
	Software downloads	Computer applications developed by IRRI	http://www.irri.org/science/software/index.asp
